New dedicated website for Domestic Abuse Charity in Milton Keynes

For many years MK ACT has not had their own dedicated website, instead they have had a free page on MK Web.

MK ACT is the specialist domestic abuse service for MK. The charity works with over 100 families in Milton Keynes every day to help them move on from fear and abuse. MK ACT has a strong track record in responding to the needs of their clients and developing new services. Every minute in the UK, the police receive a call from the public for assistance for domestic violence.

By Lunar Safari donating their time and expertise to designing and setting up a new dedicated website it will now enable clients and professionals to access important information about the service. MK ACT's new site also gives information on other relevant sites where people can gain support and information about safety and help.

Website design is very costly and without Lunar Safari's support the charity would not have been able to achieve this.

The new website has also allowed MK ACT to thank other organisations that have supported them. Without people and companies in Milton Keynes offering their time, money or donations to support the work they do, the charity would not be able to help as many families that are suffering from the affects of domestic abuse. If you want to know more about how you can help then go to www.mkact.com
